

SILP Readiness

Let's Talk: Living on My Own

What's living on your own all about...

Not sure what it means to live on your own? Come check us out and join in on the conversation about what you need to do to prep to live on your own. Let's also talk about how you can set yourself up for success when you're ready to move out and live on your own.

Do you qualify?

If you're a current/former foster/emancipated/probation youth who is preparing to or are already actively participating in AB12 and chose to live in a SILP or even on your own, you qualify.

How can you participate?

Your SW/CWW or PO or B:E Case Manager can refer you if meet our qualifications. They can complete a referral form. Referral forms are available at ILSP office or by contacting Angely Miranda.

What will YOU benefit from participating in SILP Readiness?

You will get to work one on one with a case manager and get individualized support to prepare you to live on your own.

You will get to participate in some cool and informational workshops with your peers to further develop the skills you need to live on your own successfully. You'll also get to create a support network that you'll learn from and share your experiences with.
